OUR CULTURE

HOW TO GET THE MOST OUT OF PERFORMANCE

FIERY

Fiery and hungry for success. By always giving our best. We are constantly raising the bar. Sometimes we stand along the line. Sometimes we are the focal point. But always you know what you have with us. A stable factor in any team. Will you join us for maximum performance?

ENTHUSIASTIC

Full of enthusiasm, we enter the field. Always going for the win. We also put this enthusiasm into our cooperation. We listen and pay attention to your needs. After all, we help each other along. And enthusiasm is contagious, we'll go for that smile with you!

FAIR

Treat someone the way you want to be treated yourself. Deal = deal. We always give you honest advice and think along with you. Even in the face of adversity, we support the club. We go for team spirit and have respect for each other.

EXPERT

Specialists for everything in and around the pitch, so you can focus on the game. We continue to develop and include our partners in growth. So that we continuously deliver top performance on the route to success.

YOU CAN FOCUS ON THE GAME.

WE CONTINUE TO DEVELOP AND TAKE EACH OTHER WITH US IN
GROWTH.

SO THAT WE CONTINUOUSLY DELIVER TOP PERFORMANCE ON
THE ROUTE TO SUCCESS.

GOOD LUCK TO THE ATHLETES.
GOOD LUCK TO THE TEAM.

**WE ARE SKOR.
A SPORTS BRAND, DRIVEN BY PERFORMANCE.**

SUSTAINABILITY AT SKOR

Sustainability plays an important role in everything we do. With SKOR, you exercise in a sustainable way and contribute to a better world. We are therefore well on our way to being climate-positive by 2023!

TOWARDS CLIMATE POSITIVE

We have a strong ambition at SKOR to be climate-positive by 2023. In recent years, we have had a strong focus on energy savings, waste reduction and recycling. In the coming years, we will continue to work on this, of course, but will also make maximum efforts to offset. In a maximum of three years, we will pursue our goal: climate-positive! But what does that actually mean? Climate-positive means that with every SKOR product you buy, you are making an active contribution to stopping climate change. And then you also get a cool SKOR product on the side! Why are we doing this? Not for ourselves, but for our children.

WITHIN SKOR

SMARTER TRANSPORT

Delivery and assembly is part of our services. Our advanced planning system enables us to combine trips and bundled purchasing of supplies.

This minimises transport movements.

If the opportunities are there, we will definitely look out for whether the deployment of zero-emission vehicles is of interest to us. Until then, we use means of transport that meet the highest emission standards. Our ambition is 100% emission-free transport!

CLEAN ENERGY

Since we produce ourselves, we cannot escape consuming energy. But we do this sustainably. For instance, we have 600 solar panels, making us completely self-sufficient. Zero emissions, in other words! For heating, we have underfloor heating, HR heaters in the plant but also a Heat Recovery System. Currently, developments in heat pumps are being closely monitored.

NO WASTE

Aluminium does not belong on the scrap heap, you should make goals out of it. And we do. The products are developed in such a way that less than 0.5% waste is generated in the production process. And we separate that last bit by making sure it is recycled again so it can be taken back to the front of the chain. We also collect paper and plastic separately and recycle it for our aluminium. Applies; sawing waste and old goals are processed by our own supplier of the profiles into new profiles. And so our aluminium products are 100% circular!

MATERIAL USE

ALUMINIUM

We make our new goals and dugouts from 80% recycled aluminium. This saves 95% of the energy needed to make new aluminium.

WOOD

Wherever possible, we replace wood with more sustainable alternatives such as recycled plastic. For the little wood we do still use, we always choose sustainably harvested wood.

PLASTIC

Not all plastic applications can be manufactured from recycled raw materials, think of the transparent sheets of dugouts. Here, however, we choose the best quality boards that last as long as possible and can be properly recycled again.

NO WORLD, NO GLORY

OUTSIDE SKOR

SERVICE LIFE

Smart and efficient production and transportation with renewable energy are, of course, not the only pillars of sustainable products. Longevity is perhaps just as important we think. That is why we develop products that last just a bit longer than you might think. And as a result, we all need fewer new products because we consume less together. Our advisers are ready to help you select the most suitable product from the wide SKOR range!

RECLAIM

After the service life of a sports product, we will come and collect it again free of charge, whether it is a SKOR product or not. We will further ensure the proper recycling of your discarded goal, ball or shirt. And we then turn this into new sports products. Nice and circular, in other words. Bring on your trash!

COMPENSATION

The residual pollution is getting smaller every year as developments are occurring at a rapid pace. Waste reduction, cleaner production and recycling has already taken us a long way, but unfortunately it is not yet a closed loop. That applies to any business. Do we resign ourselves to that? Definitely not! One asset we still have in hand is compensation. SKOR invests globally in projects that combat climate change. Cutting CO2, planting forests and waste management are just some of the headlines.

COMPENSATIE PROJECTEN 2020

INNOVATIONS

DUGOUTS

SERVICE LIFE

- The first with UV-resistant polycarbonate
- The first with fully welded goals and dug outs

APPEARANCE

- The first with an angled dugout and fully pre-assembled

REFERENCES

We have been developing and manufacturing high-end sports products in-house for more than 20 years. SKOR is the Benelux market leader for products such as football goals, dugouts and hockey goals.

Professional clubs like Ajax PSV, Feyenoord, Club Brugge and Anderlecht choose SKOR. Besides high quality, they choose SKOR's personal approach and service-oriented approach. Play like the pros, find out for yourself and choose SKOR too!

PRODUCTION

From the early years of SKOR, then called ERMA Sport, we welded our own goals and dugouts. In the beginning with a rented welding machine and just enough tube material, now a well-oiled machine with a team of qualified welders and fitters.

Thanks to this mountain of experience, a lot of know-how has been gained and SKOR is the leading player when it comes to quality and innovation. Consequently, we have many developments to our name and developing new smart solutions is still in our DNA.

NECDET
Aluminium TIG welder

ADVANTAGE

The big advantage for you as a customer is that we can solve problems at lightning speed, including on-site. And because we are the source, we cannot point to another either. So if there is a problem or complaint, we take it seriously and can use this knowledge to fine-tune our product or process. For us, a complaint is an opportunity for improvement!

WAREHOUSE

SKOR has by far the largest stock of relocatable goals in Europe. As a result, we can always guarantee short delivery times on our runners.

With 10,000m² of sports products, SKOR is among the biggest players in Europe. We have a large stock of almost everything! For example, football goals, dugouts, korfbal posts, hockey goals, footballs, goalkeeper gloves, goal nets, all common training materials and much more.

Ordered today before noon means it will be sent by parcel service today. For larger shipments, you will always be contacted to schedule an appointment together with you.

OF COURSE
WE SPONSOR
OUR FRIENDS!

DO YOU WANT TO BOOST YOUR ASSOCIATION?

WHY A FRIEND OF SKOR?

DO YOU RECOGNISE THE FOLLOWING PROBLEMS WITHIN YOUR ASSOCIATION?

- Fewer and fewer volunteers
- Declining sponsorship income
- Lack of IT systems and communication within the club
- Youth going home immediately after the match
- Training not of sufficient level
- Shattered material procurement

Society is changing. Volunteers are becoming scarcer and therefore fewer people have to carry the increasingly heavy burden. In addition, members have increasingly high expectations without actively contributing themselves. They see the club almost as a business and everything has to be perfectly organised. SKOR would like to help your association and that's why we have developed the concept of "Friend of SKOR" for this purpose.

THE SOLUTION

For every problem, we have selected a partner that offers a solution!

As a Friend of SKOR, you get high discounts and we become a sponsor of your club. Be amazed by the solutions at hand.

PORTABLE GOAL

SKOR has the largest range of football goals! We have a suitable solution for every requirement. Besides the different sizes of moveable football goals, such as mini goals, youth goals and senior goals, we also offer you the possibility to choose your type of net attachment. For example, if you don't want to have to worry about goal nets coming loose, choose "Comfix". SKOR's football goals can also be fitted with smart accessories. Consider, for example, wheels in different places on the goal, so you can easily move it around the football pitch. You can also opt for carrying handles and goal weights. By doing so, you ensure that the goal cannot tip over. Would you like to know more? Please feel free to contact us, without any obligation. We are happy to help you put together your portable football goal!

FIXED GOAL WK MODEL

You know them, the goals on your football club's main or ancillary pitch. A product that is indispensable but invisible to many. SKOR's fixed football goals have been developed over the years and represent the highest quality standard in the world! Our fixed football goals are produced in our own factory in Almelo. The materials are carefully chosen, matched to the use and so are the accessories. The level of finishing is great. SKOR offers you the only opportunity to put together your own football goal, completely according to your own taste and wishes. Consider, for example, our Comfix net attachment system, as well as the new folding net bracket (mowing bracket) to allow maintenance on the pitch. On the pages below, you will find an overview of the fixed football goals we can offer you.

DUGOUT TYPE 1 DELUXE

SKOR's dugouts are produced in our own factory in Almelo. They meet the highest quality standards and are at premier league clubs such as: Ajax, Feyenoord, PSV, as well as Heracles, AZ, FC Twente and Willem II. SKOR's dugouts are also at many amateur clubs. Not only at football clubs, but also hockey clubs and korfbal clubs.

Need help choosing the right dugout, or need customisation? Our specialists will be happy to help you choose a dugout that suits your needs.

DUGOUTS

Trusted by:

BASIC

Width: 1 to 5 m
 Headroom: 1.95 m
 Depth: 1 m
 Seating: Spruce boards

DESCRIPTION

This dugout is inexpensive to purchase. The materials used are less robust, but the quality is still good! The dugout has a straight shape and is shallow. It can therefore be deployed along sports pitches with limited run-out and provides a seamless connection to the fencing, keeping the ball inside the playing area.

TYPE 1

Width: 1 to 9 m
 Headroom: 1.95 m
 Depth: 1.5 m
 Seating: Meranti boards or bucket seats

DESCRIPTION

Dugout type 1
 This dugout has a round shape and is widely used by football clubs. The round overhang ensures you sit dry during a rainstorm. The width of the dugout can be adjusted as required.

TYPE 2

Width: 1 to 9 m
 Headroom: 1.95 m
 Depth: 1.5 m
 Seating: Meranti boards

DESCRIPTION

Dugout type 2
 This dugout is predominantly straight with a small bevel at the top. This dugout is widely used by hockey clubs, as its straight side provides a good connection to the fencing. This keeps the hockey balls neatly inside the playing field.

TYPE 2.2

Width: 1 to 9 m
 Headroom: 2.2 m
 Depth: 1.5 m
 Seating: Meranti boards or bucket seats

DESCRIPTION

Dugout type 2.2
 This dugout is also straight, but is 2.20 metres high. In addition, the dugout is shallower and therefore good for use along sports fields with limited run-out.

INFILL GUARD

200 MM

Infill Guard is a durable edging system that keeps the infill inside the fence. Our Infill Guard is 100% circular and can be combined with existing billboard systems. Thanks to the rubber profile, height differences in the pavement can be accommodated. This edgeboard solution fulfils the duty of care and avoids fines.

ECO GRADE ALUMINIUM
Made of 80% recycled aluminium

UV-RESISTANT RUBBER
Long service life, does not harden

INFILL GUARD

- ✓ 100% circular
- ✓ 95% energy savings in production compared to new aluminium
- ✓ Made of 80% recycled aluminium
- ✓ Applicable to all fencing. The sideboard solution is easy to integrate with existing billboard systems
- ✓ 20-year warranty on construction
- ✓ We take responsibility for the products and the recycling process
- ✓ The rubber contains no toxic substances such as PAHs
- ✓ Cradle to Cradle: we can turn Infill Guard into new goals and dugouts

Infill Guard; a circular, universal and multifunctional system that ensures that microplastics remain within the playing surface and do not enter the surrounding natural environment. Infill Guard can be combined with existing billboard systems (or purchased new), providing a seal up to 1 metre high around your playing field.

With the Infill Guard, we have introduced an absolute trendsetter. After a year of development and testing, SKOR was the first with a perfectly working system. Infill Guard, meanwhile, is a complete range of different edge boards and billboard systems. We have the right solution for every situation. Our specialised assembly teams ensure the perfect finish!

BILLBOARD SYSTEM

The most solid billboard system in the market. Because the board fits tightly into the system, it is not only low clearance but also low-noise. This product is easy to assemble and available in all colours.

The most solid system on the market

- ✓ Combined system of aluminium and rubber for enclosing the top of an advertising sign
- ✓ All materials are 100% recyclable
- ✓ Aluminium made of more than 80% recycled material
- ✓ Aluminium extrusion profile
58 x 30mm (top profile)
50 x 30mm (bottom profile)
- ✓ Wall thickness 2 - 2.5mm
- ✓ Suitable for sheet material 4 to 10 mm thick
- ✓ Quick sign changes possible by lifting the billboard and tilting it in/out of the profile
- ✓ System consists of a top and a bottom profile. This bottom profile is unnecessary when using the Infill Guard (edge board)
- ✓ Includes EPDM rubber profile against excessive noise due to vibrations in the billboard
- ✓ Rubber is free of PAHs or other toxic substances
- ✓ Applicable to all fencing where the centre distance of the posts is not important
- ✓ Profiles at a length of 7.5 m, connectable by means of coupling profiles
- ✓ Ends of the profiles are finished with end plates without protruding parts
- ✓ Profiles can be screwed to the post or clamped with brackets
- ✓ Coating is optional (in any RAL colour)
- ✓ Radius corners (optional)

Format: H=58mm D=30mm L=7500mm

STANDS

Grandstands come in many shapes and sizes. SKOR's stands are easy to install and can be used both indoors and outdoors. The various options allow the stand to be put together as you wish. Consider the number of rows and the width of the stand. You can also choose different seating options such as wooden benches and plastic chairs. The stands can be anchored in the ground but it is also possible to deliver them on wheels. Success is guaranteed and with the SKOR stand, supporters can enjoy the games safely and pleasantly from the sidelines for years to come. Ask our specialists about the possibilities for your customised stand!

GRANDSTAND AND STADIUM SEATS

SKOR has a wide range of grandstand seats. So there are lots of types of chairs and there are lots of different colours. SKOR's grandstand seats are thus suitable for stands and dugouts at sports venues, such as football pitches. Bench seats come in different types, so too in our range. SKOR has a suitable solution for every requirement, location, budget, or just a standard solution. Grandstand seats in club colours? No problem! We offer chairs in different RAL colours.

REVIEWS

We are one of the largest clubs in the Netherlands, and because our hockey equipment is used intensively and for many hours, we attach great importance to the warranty life of hockey goals as well as the service provided. SKOR is the most suitable partner for us in this.

- Kampong

SKOR has been our supplier for hockey furnishing materials since the organisation of the Hockey World League in 2015. The solid construction, appearance and the possibility of personalising the hockey goals for the World League were decisive for us.

- KHC Dragons

Hockey goals from SKOR are real Eye Catchers, we attach great importance to appearance and quality. In addition, we always have pleasant contact with SKOR and dealer Hockey Partner.

- HRC

CAMO

Buy a football? At SKOR, you will find a carefully composed and well-organised collection of footballs. SKOR's footballs are very good quality and rival the best brands in the market. Our collection of footballs is not fashion-sensitive and can be purchased/ordered in years to come, as a football club would like. Recognisable, familiar and top quality. SKOR footballs are suitable for training and competition, pupils and seniors. All SKOR footballs are developed in the Netherlands by our specialists who play football themselves and meet the highest quality standards. By footballers, for footballers! Our starting point, as with all our other products, is always to develop a football that is the best in its price range. Want to buy a SKOR football? Take a look among our range and find your perfect football. We are happy to give you advice on buying a football and think with you about which balls would best suit your team or club.

HURDLES

These hurdles are particularly suitable for training purposes. The hurdles are made of flexible plastic, making them particularly safe and pleasant to use. The hurdles are unbreakable! These hurdles are absolutely essential on the training fields!

MATERIALS

Are you a trainer, coach, manager, player or equipment man? Chances are you are looking for good training materials! No matter what sport you play: without the right equipment, giving or following a workout becomes difficult. At SKOR, you will find a clear range of training materials to get everything out of your training.

GOALKEEPER GLOVES

These goalkeeper gloves Saint blue hybrid have a fresh design and are made of the best materials. The Roll Hybrid construction is the optimum between freedom of movement and a large latex surface. The backhand is made of neoprene, completing the great fit of these goalkeeper gloves. The Ultra Pro Grip Latex provides the best grip imaginable. To prevent even the last bit of sliding in the goalkeeper gloves, silicone strips have been added to the inside. Don't wait any longer and try these modern SKOR goalkeeper gloves!

UNDERWEAR GOALKEEPERS

This Goalkeeper Legging is suitable for all types of surfaces. The goalkeeper leggings are wonderfully tight and feature seamless padding on the hips and abrasion-resistant patches on the knees. Absolutely UNIQUE is the combination with the muscle mapping that makes the leggings a compression tight at the same time! These goalkeeper leggings are definitely a hit. You've never worn anything like this before!

MUSCLE MAPPING "UNIQUE"
Against muscle injuries

TIGHT FIT
For ultimate sporty wearing comfort

SHORT MODEL

LACE
Trousers do not sag

ELASTIC BAND & CORD
Does not sag

HIGH RISE
Great high rise

SEAMLESS PADDING
Flexible and high wearing comfort

HARD-WEARING KNEES
Less frequent wear spots on knees and moulds with you

GRIP SOCKS

The global trend: grip socks! Do you recognise that feeling of slipping in your shoe while shooting a ball? Or when you turn on at a sprint? Thanks to the non-slip studs on the bottom of our grips socks, you'll put on perfect power with every move or sprint you pull! In doing so, you also don't shoot forward in your football boot and immediately start playing a lot better football. Our grip socks are also suitable for sports with a lot of lateral movement like korfbal, hockey, squash, tennis, running and fitness.

JUST BELOW THE CALF
Sits comfortably

ANTI-BLISTER
No abrasive material

ANTI-SLIP STUDS
Optimal grip

THICK BAND
This prevents the sock from sagging

SHIN GUARDS

Shin pads are indispensable with your football outfit! Indeed, shin pads are mandatory for every footballer playing official matches. There are many different models and types of shin guards for sale. Sometimes it is hard to choose. Therefore, we have selected two models of shin guards that we think are used the most. They have a beautiful design and the quality is second to none!

PEPE

ULTRA-LIGHT
No extra weight on your legs

FLEXIBLE SCALE
Flexible, moulds to shin

COMFORTABLE FABRIC INSIDE
Comfortable and no sweating

GRIP STRIPE
Both below and above.
Does not sag

(OPTION) MATCHING SLEEVES
This will stop your shin guards sagging

MESH BACK
Ventilating & moisture-regulating
